- Proprietary, Specialty Oriented Technology
- Informative Month-End Meetings
- Standard and Custom Reporting
- HIPAA Compliant Operations
- Specialty Coding Knowledge
- Practice Benchmarking and Development

Benefits

- Effective
 - Collect on full billable amount without recoding or under-coding
 - Collect payments which are considered difficult but not impossible to collect
 - Improved coding to ensure maximum reimbursement
 - Minimize coding errors to realize maximum income potential
 - Store an unlimited number of fee schedules
 - Benchmarking data is provided to assist in preparing for contract negotiations
- Quality Assurance Audits
 - Flag payments that are short of contract amount
 - If payments fall short, an automatic appeal is filed to recover full amount
 - Trending data is used to identify issues and chronic underpayments
- Compliant
 - Weekly software updates ensure you remain compliant with changing billing regulations
 - Denial codes are grouped to allow for clean claims the first time
 - Better preparedness for any billing audit
- Transparent
 - No need to wait on monthly reports
 - Inspect any aspect of your billings on demand
- Initial setup and audit often uncovers up to 5-6% collection improvement through:
 - Tightened reporting without inflated data
 - Fewer days in accounts receivable
 - Minimizing write-off accounts
